Bavdhan is a beautiful upcoming locality on the western border of Pune city adjacent to the Mumbai-Bangalore highway. It has developed rapidly in the last five years. It is one of the cleanest, greenest and safest areas in Pune. It is also one of the least polluted and most peaceful, tranquil localities

of Pune. The population density is relatively less and most of the residential societies have been constructed in the last 5-10 years. So it boasts of relatively younger and newer generation population as compared to other areas.

- *Less polluted*
- *Newly constructed, no water problems*

Cons:

- *On the outskirts of the city*

Bavdhan is an emerging hot destination ideal for investment and for the end users to live in. Its clean environment, scenic nature, wide roads, with the necessary infrastructure support and active municipal representatives. Most of the developers have sold out their projects and clients (investors and end users) are enjoying the appreciation and the excellent rentals as well by now.

New projects are being launched by reputed developers with excellent proven track records in the realty market.

Few potential and professional property consultants and advisors are existing in the vicinity to assist the prospective clients.

The appreciation growth rate per year is almost 25% per year for residential properties and the 30% minimum for commercial properties.

Rentals have been observed to rise by 10%-15% depending on various factors of the building and the infrastructure, amenities, etc.

The growing industry in PIRANGUTE, HINJEWADI, CHAKAN, TALEGAON are looking up to the west of Pune for their professional staff as a destination to reside. Hence Corporate are keen to look up to BAVDHAN as a cool and scenic place to reside in.

The periphery of BAVDHAN is surrounded by Hills and dense forest reserved by NDA and Defence Research Development Organisation (DRDO) respectively, which ensure the temperature to be MINUS 2 DEGREE throughout the year.

Pros:

- *Easy accessibility to the necessities and infrastructural support*
- *Excellent cool climate*
- *best appreciation proven in the past 5 years*
