Expert Reviews on KLJ Heights

Klj Heights I have booked the in 2010 till now i did not get the possession in the agreement time will be 2013 but till date i did not get the possession of the flat. Now i get the offer letter but in this builder increase the area without telling us and with extra area they charged us the interest on the area. I visited there but the flat is not ready and the plaster of the tower will crack down there is no facility of drainage and no facility of fresh drinking water and the project did not connected with the highway. The plaster of the building will be cracking in building the water seelen in the walls of the building. Whenever i have to visit there i have to go from inside the village where the villagers were asking from us why are you going from there and all this things and in the night it is not safe to visit there.

Cons:

- *No drainage system*
- *No facility of drinking water*
- *No street lamps available in the society*
