The connectivity of Rajnagar Extension is marvelous, very near to Delhi & Noida. RNE is being developed between the two highways, this township is not only connected to Delhi but also to U.P West. Meerut bye-pass connects this township to the two highways and it provides connectivity to Delhi & West UP from both highways. Owing to these features, as compared to the other colonies in NCR, Rajnagar Extension has become the better alternative. From the point of view of infrastructure development, there is no deficiency in Rajnagar Extension. Space for Roads, electricity, water, sewage, parks, hospitals and schools etc. has been allotted with proper planning. Popularity of this township will increase more in the days to come.

In the days to come, popularity of this township will increase more. Those deficiency of Rajnagar Extension have been removed which were felt in the colonies been developed till date. It is a private

township but responsibility to develop it in a well planned and well arranged manner is being carried out by GDA. The township is being focused not only for residential but also for its complete infrastructure development. Usually, such types of balanced planning are not seen at least in Private Township. By virtue of these features, Rajnagar will remain the first choice of people for a long time.

Pros:

- *IT hubs and Golf course are proposed at Rajnagar extension*
