It's a very pleasant location with a lot of greenery and specialy roads are decent. The temple development is a major boost and further planning of mmts and metro in the future will only make this place better. There is a regional ring road planned that is expected to pass through the Yadagirigutta town. MMTS services are also under pipeline and regular buses are also expected to ply from TSRTC and other conveyance facilities are also planned in the town. When we look at the other social infrastructures there has been lot of improvement after the establishment of the YTDA. Uninterrupted power and water supply is also one of the main advantages of Yadagirigutta
