Description

Vardhman SNG Plaza is a new launch by Vardhman Group. The design of Vardhman SNG Plaza is based on scientific research done on consumer movement within a store whilst browsing or purchasing. It is noticed that in a mall, a consumer's attention shifts from one side to the other, often losing interest somewhere midway. Continuity is lost and redundant corners are left unnoticed. The project very boldly, changes the above to overcome the barrier through its unique rectangular shaped showrooms within its interiors, utilizing unnoticed corners elegantly with anchor showrooms. The architecture of the building has been designed to ensure maximum visibility & offers the following infrastructural facilities on par with international standards. The project is s pread over a sprawling area of 1.57 acres.
