Chembur boasts of easy connectivity to south Mumbai and the western suburbs through the Eastern Freeway, Monorail and the Santa-Cruz Link Road. Though, these physical infrastructures became functional long ago, they are still the major reason behind the consistent demand for properties in the locality. The first phase of the Monorail Line 1 (Jacob Circle-Wadala-Chembur), which became operational in February 2014, connects Chembur to Wadala. The second phase of the Monorail project which will extend the existing line to Jacob Circle via the GTB Nagar, Antop Hill, Dadar east, Lower Parel, etc., is under construction. It is expected to be completed by March 2015.

On the other hand, the Eastern Freeway brought offices at BKC, Lower Parel and Colaba and other localities of south Mumbai closer, reducing the travel time considerably.

"Both, the Freeway and the Monorail, had a major impact on demand and property prices. They eased commuting between Chembur and other areas of Mumbai. This attracted many middle and upper-middle class buyers to the area," says Rizwan, MumbaiSkylines, a broker firm active in the area.

"What used to be a nerve-racking drive of at least an hour to reach these areas, has come down to about 20-25 minutes through the Freeway," adds Rizwan. Apart from this, the six km long Santa-Cruz Link Road has eased the travel between Santacruz and Chembur.

"Improved connectivity had a major impact on consumer sentiments. Chembur not only gained end-users but also investors who were attracted by the future prospects of the locality," says Tanvir of Mumbaiskyines.

AFFORDABILITY

"Chembur is comparatively affordable when compared to Wadala and Lower Parel, one of the prime reasons why buyers shifted here," says Sajid of MumbaiBlocks. The average capital values in Wadala range from Rs 18,000-23,000 per sq ft, while in Lower Parel, they vary from Rs 30,000-41,000 per sq ft.

Pros:

- Impact on property demand, owned and rented, is quite visible
- Not only capital appreciation, Chembur promises good rental returns as well.

Cons:

- Traffic jam
- Slum Redevelopments
