Description

Hyderabad has a well-developed transport infrastructure. The city and its suburbs is traversed using its road networks. It is well connected by Road , Rail and Air with most cities and towns in India except through waterways. The city has fairly better transport infrastructure, though road infrastructures are not well maintained and developed according to the growing needs of transport, making traffic congestion a major problem in the city. A comprehensive transport development plan is made part of Its Master plan as part to ease many of traffic problems.
